

Designated Hemophilia Home Care Providers

The Department of Health and Senior Services is authorized by law to designate the hemophilia home care providers. State-recognized Outpatient Regional Hemophilia Treatment Centers

By law, carriers offering health benefits plans that are managed care plans must provide payment to the clinical laboratory at a hospital with a State-recognized outpatient regional hemophilia treatment center for covered services rendered to a covered person with hemophilia, regardless of whether the hospital's clinical laboratory is a participating provider, under certain conditions. (See section 2 of [L. 2001, c. 121](#), codified at [N.J.S.A. 26:2S-10.2](#), and sections 3 through 10 of L. 2001, c. 121, variously codified throughout Titles 17, 17B and 26 of the New Jersey Statutes.) Generally, carriers are obligated to comply with this requirement when a covered person's attending physician determines it is medically necessary to do so with respect to treatment of the covered person's hemophilia. Rules addressing this issue are set forth at [N.J.A.C. 8:38C-3](#), and readers interested in obtaining more detail about the requirement and applicable standards should refer to those rules.
